

MUGASIN M

Python Developer • Software Engineer • Software Developer

Chennai, Tamil Nadu • +91 90801 83671 • riyasmugasin@gmail.com • [LinkedIn](#) • [GitHub](#) • [mugasinportfolio.netlify.app](#)

PROFESSIONAL SUMMARY

Software Engineer with production experience shipping features on two live platforms, GST Ledger Pro and Briktra. Skilled in Django, RESTful APIs, PostgreSQL, and React.js, with a strong foundation in end-to-end QA, API testing, and Agile delivery. Built and deployed full-stack applications independently, focusing on clean architecture and reliable backend systems. Ready to contribute from day one in a full-time Software Developer, Software Engineer or Python Developer role.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript
- **Frontend:** HTML5, CSS3, React.js, Bootstrap, Responsive Design
- **Backend:** Django, Django REST Framework, REST API Development
- **Databases:** MySQL, PostgreSQL, SQLite
- **Testing & QA:** Postman, Test Case Design, Bug Reporting, API Testing
- **Concepts:** OOP, MVT/MVC Architecture, CRUD, Authentication, Role-Based Access Control, Agile/Scrum
- **Tools:** Git, GitHub, Vite, Jira, VS Code, PyCharm, Netlify, AWS, Claude Code, Cursor

WORK EXPERIENCE

Software Engineer Intern | EdgeZen Labs · Hybrid

April 2026 – September 2026

Tech Stack: Python, React.js, REST APIs, PostgreSQL, Postman, Jira, Git, GitHub

- Architected a warehouse management module for GST Ledger Pro, a live GST billing platform, by implementing parent-child location hierarchy and FIFO/LIFO stock logic using React.js and PostgreSQL
- Strengthened platform revenue by implementing subscription-based access control across 2 pricing tiers — POS Terminal and Full Feature
- Improved platform stability by designing and executing QA test cases across applications — resolving critical bugs before production release
- Identified and resolved functional bugs to ensure consistent behaviour across all user flows
- Debugged and resolved critical issues across frontend and backend modules, improving overall code reliability
- Participated in code reviews and team meetings, aligning on sprint goals in an Agile workflow
- Authored technical documentation for API endpoints, module workflows, and QA test cases
- Ensured API reliability for the Briktra platform by validating REST endpoints using Postman and tracking all defects via Jira

PROJECTS

Car Rental Booking System — DriveX | *Tech Stack: Python, Django, SQLite, JavaScript, HTML, CSS*

- Built a full-stack car rental platform using Python and Django with booking, availability management, and payment flow
- Developed an admin dashboard to manage car listings, monitor bookings, update availability, and track rental status in real time
- Implemented role-based access for admins and customers with secure authentication and session management
- Designed responsive UI using HTML, CSS, and JavaScript with real-time car availability filtering
- Integrated SQLite database using Django ORM with full CRUD operations and database migrations for schema management

Trademark Verification System | *Tech Stack: Python, Django, MySQL, JavaScript, HTML, CSS*

- Developed using Python and Django to register, search, and manage trademark records with duplicate name detection across 100+ entries
- Built admin approval/rejection workflow allowing administrators to review, approve, or reject trademark applications with status tracking
- Managed MySQL database schema using Django ORM and migrations, ensuring data integrity across trademark records

MAS Milk Society — Dairy Cooperative Web App | *Tech Stack: React, Vite, CSS, WhatsApp API*

- Built a static React SPA for a dairy cooperative with a product catalogue, cart system, and WhatsApp-based checkout flow
- Integrated HTML5 Geolocation and Nominatim reverse geocoding to auto-fill delivery addresses with zero backend dependency
- Delivered a mobile-first UI with responsive navigation, scroll-based fade-in animations, and a floating WhatsApp CTA deployed as a static build

EDUCATION

BCA — Bachelor of Computer Applications | University of Madras | 74%

2022 – 2025

Lakshmi Bangaru Arts and Science College, Chengalpattu District, Tamil Nadu

HSC | Govt. Hr. Sec. School, Marudadu, Vandavasi

2021 – 2022

SSLC | RCM High School, Vandavasi

2019 – 2020

CERTIFICATIONS

Python Full Stack Development — Qspiders, Chennai

Oracle Cloud Architecture — Oracle

Frontend Development & Data Administration — MongoDB
